

2025 Corvallis CBC Feeder Tally Form  
Count Day: Tuesday, December 16, 2025

Name \_\_\_\_\_ Address \_\_\_\_\_

Phone Number \_\_\_\_\_ Email \_\_\_\_\_

Number of observers \_\_\_\_\_ Total observing time, to the nearest ¼ hour: \_\_\_\_\_

**Instructions:** Record the number of each species you observe at your feeders, in your yard, and in the air above your yard on the Count Day only. For each species, record only the greatest number of individual birds seen at one time; do not tally all birds seen during the day as that is likely to result in counting the same birds multiple times. If you observe a species that isn't listed below, please add it at the end of the list. If you see any species at your feeders or in your yard 3 days before or 3 days after the Count Day that you don't see on the Count Day, write "cw" next to their name. If you have any questions, contact Bev Clark (clark.bev9@gmail.com; 541-231-7201).

Send your form by December 23 to: Matt Lee (sueandmatt@comcast.net; or 670 NW Mirador Pl., Corvallis, OR 97330).

Thanks for participating!
